### Lowe Engineers Project Wins Another ACEC AWARD

*Atlanta, GA – March 2008*

Lowe Engineers presents **2008 Honor Award for Topographic Surveys on Infrastructure Support Projects at Ft. Benning, GA** to The US Army Corps of Engineers, Savannah District.

The award is for the Topographic Surveys on an Infrastructure Support Project at Harmony Church, Ft. Benning, GA. Lowe Engineers was responsible for surveying over 20 sites at Ft. Benning, an equivalent of over 1000 acres. All sites required 1' detailed topographic mapping and utility mapping. The approach for this project required the use of innovative techniques and high-tech equipment to accurately complete the complex detailed topographic, as-built, and utility surveys within the required deadline. The completed surveys and mapping exceeded the client's expectations, and the project deliverables were submitted accurately and on time, allowing designers, planners and contractors to utilize the data in design/build bids. Lowe Engineers is proud to have worked with Tim Morris, Bob Sauntry, Keith Burr and many other District personnel on this project.

#### About Lowe Engineers:

Lowe Engineers provides comprehensive engineering (civil & transportation), surveying, mapping, and planning services for state and local governments, federal agencies, utility companies, industrial and private sector clients throughout the United States and abroad.
