

PRESS RELEASE

We are busy! **Atlanta, GA – 2007**

We have had a great year so far; here are just a few of our recently awarded projects:

Residential/Commercial Civil Site Group

Friendship Village Development, Fulton County, GA

Lowe Engineers was recently selected by Minerva Properties to provide professional engineering and surveying services for the preparation of Fulton County Concept Plans, (Stormwater Management and Sanitary Sewer Master Plans), of the development of a new mixed-used project located on the north side of South Fulton Parkway, northwest of the City of Palmetto. This 2,000-acre project will include residential, retail, office and a charter school in a planned low density development.

Survey / Geospatial Groups

Aerial Photography and Mapping Services Statewide, ALDOT, AL

Lowe Engineers was the consultant awarded to perform all professional mapping services statewide for the Alabama DOT. Responsibilities pertaining to the performance of aerial photography and photogrammetry will serve the purpose of highway planning, location, design, construction and maintenance. All mapping produced will meet the American Society for Photogrammetry and Remote Sensing Accuracy Standards.

Transportation Group

Bill Murdock Road, Cobb County, GA

Lowe Engineers provided design for improvements of a 3-lane section to provide left turn lanes and a center turn lane at Walton High School, Dodgen Middle School and Old College Way. This project was funded completely with local SPLOST funding and was designed in accordance with AASHTO and FHWA Guidelines. The project also conformed to current Cobb County and Georgia DOT Standards and Specifications and was completed ahead of schedule.

Engineering / Survey / Geospatial Groups

Infrastructure Support Services, Ft. Benning, GA

The infrastructure Support and Harmony Church Development project is a project created to support the BRAC 2005 reassignment of the US Army Armor School to Ft. Benning. Lowe Engineers was requested to perform civil engineering, surveying and mapping as part of Odell Design/Build IDIQ contract with USACE Savannah District. There are several projects under this contract, and most of them are fast-track, some of these projects include: a new fire station, roadway widening, bridge replacement, roadway improvements, a new interchange and access control point, and water & sewer civil design documents.

About Lowe Engineers:

Lowe Engineers provides comprehensive civil engineering, surveying, mapping, and planning services for state and local governments, federal agencies, utility companies, industrial and private sector clients throughout the United States and abroad.
